

Dear Vicki and Jim,

Thanks for the nice letter that came today. It was really interesting to read about Laurel. When we lived there I worked in a drug store for something to do and it was right on the main highway from Wash. D.C. to Baltimore. I am sure that is a freeway now. I was sure you would love living back there. I just loved it.

We are going out to play bridge tonight and dad is having a little nap. Mary and Mike are coming over to get the station wagon as they have 20 thousand Berken letters to take to Olympia and put through the sealing machine. Stella and I stuffed envelopes yesterday and when dad and Harold got home from work we all went out for a late dinner. Mrs. Forsing also worked on the letter stuffing but she had a very hard time

---

remembering which was the envelope and which one was the letter. There were also two clippings to enclose and she got terribly confused but she loved having something to do.

I went to my new dentist yesterday and what a change from the old way. Everything is so deluxe and it seemed funny to lie down on an adjustable lounge. I remember you telling about that in Berkeley, Jim.

~~I won't eat any more fish.~~ Yes we have read about the danger.

The Seafair bridge sectional is this week end. I am playing in the Womens Pairs Friday with Neva and Dad and I will play Saturday Night. We have had a rainy week for Seafair.

Ruthie is having her breasts and coccyus for X-ray Monday. It will be nice seeing her new home in Everett. I am going to pick Mary up at her office. I am glad she can go too.

Morning 10:30

I am going to a bridge luncheon today and picking up three women. I have Mary's car as they have the station wagon. I just ran out to see what condition her car is in and it is full of papers and debris so I have to hurry and clean it up.

Mom later.

Love,

Mom.
